  - EURODIG – April 2010, Madrid, ES

NRO Statement on IGF Continuation

- The RIRs, as the NRO, have participated in the IGF process, representing the interests of community members from developed and developing regions

- NRO supports an environment where all stakeholders can participate equally and openly

- The non-decision making status of the IGF facilitates valuable, constructive discussion, and informs and inspires decision makers

- The NRO urges greater efforts to facilitate remote participation in IGF events

- The NRO is committed to engaging with and financially contributing to the IGF, and encourages other stakeholders to join us in this

NRO Statement on IGF Continuation

- Delivered directly to United Nations Under-Secretary-General for Economic & Social Affairs, Sha Zukang

  http://www.nro.net/news/nro-statement-igf-continuation.html

Presence @ IGF 2010

- Three NRO workshop proposals:

    - IPv6 Around The World: Surveying the Current and Future Deployment of IPv6, Critical Internet Resource

    - Enhancing Transparency in Internet Governance Openness

    - Maintaining the Open Architecture of the Internet, Critical Internet Resources

- Looking for industry partners to realise these workshops – please approach us

- Active participation / speaking slots for RIR colleagues in the sessions on Critical Internet Resources
