

Database-WG

Action Point
Status

Old Actions

- AP54.6 (RIPE NCC)
 - Removal of orphan objects
- AP58.1 (RIPE NCC)
 - Check that ASUSED can support IPv6 objects

Newer Actions (1)

- AP59.1 (RIPE NCC)
 - Reverse delegation safeguards need to be put in to prevent sub delegations of /24s below /16s.
- AP59.2 (RIPE NCC)
 - Make sure that a wide announcement goes out before the removal of unreferenced contact objects continues.
- AP59.3 (RIPE NCC)
 - Release the database documentation in HTML form.

Newer Actions (2)

- AP59.4 (RIPE NCC)
 - Investigate amount of effort needed to implement key-cert search on the owner attribute
- AP59.5 (Piotr Strzyzewski)
 - Raise the proposal on the DB-WG mailing List
- AP59.7 (RIPE NCC)
 - Investigate the Data Protection issues of allowing such searching

Newer Actions (3)

- AP59.6 (WW114)
 - Refer question of optional mnt-ref or ref-nfy attribute on person and role objects to NCC Services working group to determine extent of requirement and possible problems.
